Acting Principal - Mr P.Nickson

Dear Parents and Carers

All Hallows Catholic College is proposing to significantly reduce the quantity of water sold in disposable plastic bottles. Catering facilities at AHCC are provided by Innovate who have agreed to work with the College to significantly reduce the quantity of bottled water sold.

We would like to work with you as a community to contribute to the reduction of plastic waste in society. We are strongly recommending that students bring a re-usable water bottle to school which they should fill at home each day before College.

- Ideally it should be 700-800ml capacity for adequate hydration through the day.
- We will maintain a small stock of bottled water as a contingency.
- There is a water tap available in Café Bernard which can be used to hygienically fill water bottles. It is not a “drinking” fountain and should not be used as such.
- Cups of water can be provided in Café Bernard if students request them.
- Other drinks will still be available for the students to purchase.

Towards half term we would like to reach a position where the overwhelming majority of students in years 7-10 have a re-usable water bottle, moving towards a position where it is a part of the basic equipment which students bring to College.

I would be grateful for your feedback on this initiative.

Yours faithfully

P Nickson
Acting Principal
