## A level English Language Summer work for Year 11

We study the AQA A level course for English Language. In order to access the course you will need to know some linguistic terminology. In this pack there is a key word list – some of these terms you should be familiar with and some you may need to look up.

Another thing you need to know is about different attitudes people have towards language issues. Included are some articles for you to read and make notes. You could do some of your own additional research or wider reading too. Below are some suggestions for books you might enjoy.

## Task 1: Key terms

Complete the grid with a definition and example. Colour code to show how well you know the term.

## Task 2: Wider reading

Read the articles / watch the videos on the links below. Make some notes on what you learn about these language 'issues' and people's attitudes towards them. You can also do your own wider reading and look up other articles about English language – how it is used and how it is changing.
