The Ward Library is home to over 6,000 items including books and some media items that support learning across the curriculum as well as provide interesting material for reading for pleasure. We also have a dedicated team of student librarians who help with issuing and returning books, as well processing new stock. Please ask if you are interested in volunteering for duty!

Fiction

The library stocks a wide range of fiction books for students in Years 7-13. Books are categorised under genre and age range so everyone can easily find something suitable to read! We also supply several books on CD and books for students with additional learning needs (EG larger print, coloured pages) to make texts more accessible.

Non-Fiction

We also stock reference books and non-fiction books for all the subjects in our curriculum, from KS3 to KS5. Many books in our library have been selected by our teaching staff so they are up to date and relevant to the subjects taught in school.

On the Windows

For our 6th form students, as well as a dedicated book section, we have several online resources to support our students with their both classwork, coursework, wider reading, revision and the EPQ qualification.

Library Activities

We run the following in the library, so if you are interested, please see Ms Sinclair for further details or to sign up:

- Year 7 & 8 Cheshire Schools Book Quiz Teams
- Review Crew - if you are a keen reader and would like to read our news books, fill in a short review to help other students choose their next book.
- KS3 Book Group
- KS4 Book Group
- KS5 Book Group
- Cheshire Schools Book Award Book Group
- Carnegie Shadowing Book Group

Can't find what you're looking for or want to recommend something? We are always open to suggestions, just email Ms Sinclair with your request!

*Please note that we are undergoing a period of change and lots of our resources are being updated and services and facilities developed.
